Trash/Recycling: Nantucket has very strict rules. All recycling and trash must be in clear plastic bags. • Glass must be clean and recycled by itself. • Plastic and tin must be clean and may be recycled together. • Cardboard should be broken down (any miscellaneous packing materials removed) and stacked (no bag needed) neatly on its own. Pizza boxes cannot be recycled, please include with your regular trash. • Brown paper bags should be folded and placed inside one another for collection. • Newspaper must be recycled by itself, also in a clear plastic bag. • Food and non-recyclable items should be placed in clear plastic bags separate from above noted recyclables. Please note there is a \$200 security deposit deduction for not recycling or sorting properly.

Wooden Boxes for Trash outside:

Left Box: Trash

Right Box: Recycling

Pool: To open the cover on the pool, first remove the water pump from the top of the lid. Go to the gray box to the right of the door and push up the button. It will automatically move back. Please close the lid at night, and put the pump back on which removes rain water. The controls for the hot tub/heater are located inside the door. You can also turn the jets on from the controls on the side of the hot tub patio.

Use caution diving into the pool, check the deep end first, and be aware of others in the pool.

Doors: To lock the doors to the pool, you lift the handle twice for it to be fully locked. Otherwise the wind tends to blow the door and rattle it.
